Notice of Commencement of Negotiations for Technical Services

Notice is hereby given of the commencement of negotiations for surveying and soil testing services for state construction projects for the six-month period from July 1, 1999 to December 31, 1999. Soil testing services would include testing and reporting prior to construction and inspection services during construction. Firms that provide concrete, welding, asphalt, steel, lead paint and hazardous materials testing also are being sought.

Firms interested in providing these services should submit an SF 254 form indicating their qualifications, fees for their services, and geographical areas of the state in which they are willing to work to Gary Grimes, Deputy Director of Planning and Project Management, Division of Architectural Services, 1020 S. Kansas Ave., Topeka, 66612-1311, (785) 296-8899, ext. 204. An original of the SF 254 form (plus attachments as required) should be submitted with letters of interest.

It is the intention of the division to pre-approve a separate group of qualifying surveying and testing firms and award projects on a rotational basis. If a firm anticipates being limited to specific-sized projects, by dollar volume or location in the state, that information also should be supplied with the response.

Any questions or expressions of interest should be director to Gary Grimes before 5 p.m. June 18.

Notice of Commencement of Negotiations for Technical Services

Notice is hereby given of the commencement of negotiations for air and water balancing services and commissioning of mechanical and electrical systems for state construction projects for the six-month period from July 1, 1999 to December 31, 1999. Negotiations also are commencing for infrared testing services and mechanical and electrical troubleshooting.

Interested individuals or firms in the balancing field must be certified by the National Environmental Balancing Bureau or the Associated Air Balance Council. Said individuals or firms must be engaged in balancing work on a full-time basis. Balance agencies that are of the same parent company as the designers or contractors of a particular project will not be considered for that project.

Firms interested in providing these services should submit an SF 254 form indicating their qualifications, fees for their services, and geographical areas of the state in which they are willing to work to Gary Grimes, Division of Architectural Services, 1020 S. Kansas Ave., Topeka, 66612-1311, (785) 296-8899, ext. 204. An original of the SF 254 form (plus attachments as required) should be submitted with letters of interest.

Notice of Commencement of Negotiations for Architectural Services

Notice is hereby given of the commencement of negotiations for architectural services for a new 50,000-square-foot student recreation facility to be planned and constructed at Emporia State University. The facility is to be flexible with wide open spaces that could be used for recreational and intramural activities. Planned activities include basketball, volleyball, tennis and indoor soccer. Space should be included for an indoor running track and recreational workout equipment. Construction budget is approximately \$1,800,000.

For information regarding the scope of services, contact Mark Runge, Director of Facility Planning, Emporia State

University, (316) 341-5331.

If interested, an original and six copies (seven total) of the SF 255 form (plus relevant attachments of information regarding similar projects) should be submitted. These submittals should be concise, relevant to the project and follow the State Building Advisory Commission guidelines for submittal. Copies of the guidelines have previously been distributed to firms; if copies of the guidelines are required, contact Gary Grimes, Division of Architectural Services, 1020 S. Kansas Ave., Topeka, 66612-1311, (785) 296-8899. Submittals not complying with the guidelines will be returned without consideration.

Expressions of interest and the SF 255 submittals should be received by Gary Grimes before 5 p.m. June 18.

Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment, Division of Environment, Bureau of Air and Radiation, will conduct a public hearing at 1 p.m. Wednesday, August 4, in the Airport Terminal conference room, Metropolitan Topeka Airport Authority, Forbes Field, Topeka, to consider the adoption of proposed amendments to existing asbestos control regulations K.A.R. 28-50-1, 28-50-2, 28-50-5, 28-50-6, 28-50-8, 28-50-9, 28-50-10 and 28-50-14, and revocations to K.A.R. 28-50-4 and 28-50-7. A summary of the proposed amendments and revocations follows.

K.A.R. 28-50-1. The definitions used in the asbestos control regulations are found in K.A.R. 28-50-1. Several definitions are being revised for consistency with the federal regulations. The proposed changes include: (1) extending EPA training requirements to include abatement projects conducted in public and commercial buildings; (2) amending the definition for a demolition project to exempt abatement in residences unless the properties are subject to the EPA asbestos regulations; (3) increasing the existing amount, 3 lineal or 3 square feet or less, of asbestos-containing materials that would be subject to the regulations to 25 lineal or 10 square feet or less, which coincides with OSHA regulatory requirements, (4) implementing recent changes made by the National Institute of Occupational Safety and Heath (NIOSH), U.S. Department of Health and Human Services, regarding certification of respirators and filters; (5) a proposed new definition that clarifies the types of abatement projects that will be subject to the regulations; and (6) changes to accomplish certain technical and grammatical corrections to meet administrative regulation requirements.

K.A.R. 28-50-2 implements the asbestos licensing requirements for any business entity planning on engaging in asbestos removal and encapsulation activities in the state. Proposed amendments include making changes to the regulation that describe when such abatement ac-

tivities are subject to the licensing requirements and amending the subsection that references the acceptable type of respirators and the approval of such devices.

K.A.R. 28-50-4 currently provides an exemption from complying with the Kansas asbestos control regulations for those business entities that use their own employees to remove or encapsulate asbestos for the purpose of renovating, maintaining and repairing its own facility. With the amendments to K.S.A. 65-5302 and OSHA adopting comprehensive regulations applicable to facilities using their own employees to perform asbestos abatement projects, the department is proposing to revoke this regulation.

K.A.R. 28-50-5 implements the procedures and requirements for individuals pursuing certification as an asbestos worker in the state. Since OSHA regulations now require an annual medical exam for workers and with the amendments to K.S.A. 65-5306, the department is proposing to delete the requirements for persons to be examined by a licensed physician. With K.A.R. 28-50-7 being revoked, any reference to this regulation also is being deleted. To adequately fund the workers' certification process, the department is proposing to increase the asbestos class I worker certification from \$15 to \$20 annually, and class II (supervisor) certification from \$30 to \$40 annually. Other proposed changes include making certain technical and grammatical corrections to meet administrative regulation requirements.

K.A.R. 28-50-6 implements the requirements that a training provider must meet in order to present worker and supervisory level training in the state. When Congress reauthorized the Asbestos School Hazard Abatement Reauthorization Act (ASHARA) in 1992, the EPA was mandated to amend the Asbestos Model Accreditation Plan (MAP), which sets forth the training and accreditation requirements for asbestos worker and supervisor level training courses. In the revised MAP, the length of the initial training course was extended by one day, with the worker level now being a four-day course and the supervisor level being a five-day course. Also, the EPA has increased course content and extended the training requirements to include using accredited workers when performing asbestos abatement in public and commercial buildings. Lastly, the provision stipulating that the training provider shall reimburse the department of expenses for auditing a training course is being deleted, and language is added limiting the location of where the initial course can be presented, which will allow a department representative to attend and evaluate such training course.

K.A.R. 28-50-7 currently requires written examinations for individuals seeking initial certification for the Kansas Class II supervisory level worker. Asbestos training providers are now required by EPA regulations to administer an exam at the completion of each training course and the attendee is required to pass the exam with a score of 70% or better. With this requirement placed upon the training providers, the department-administered exam becomes duplication of effort for those individuals desiring certification, and, therefore, the department is proposing to revoke this regulation.

K.A.R. 28-50-8. The requirements for submittal of asbestos abatement project notifications and applicable evaluation fees are prescribed in K.A.R. 28-50-8. In the amendments, the department is proposing to reduce the asbestos project notification evaluation fee from 1.0 percent to 0.5 percent for notified projects where more than 160 square feet or 260 lineal feet of friable asbestos-containing materials are to be removed. Also, the current regulation requires notification of asbestos abatement projects beginning with 3 linear or 3 square feet, whereby the proposed revisions to the definitions of asbestos related abatement projects, the regulated minimum reportable quantity will be increased to 10 square feet or more, or 25 lineal feet or more. These proposed changes will align the collection of fees with the amount of revenue necessary for proper administration of the program.

K.A.R. 28-50-9 establishes the work practice procedures that are to be followed when removing friable asbestos-containing materials. The proposed amendments include incorporating the federal asbestos requirements into the state regulations, which will eliminate conflict and confusion that currently exist. Other proposed changes include making certain technical and grammatical corrections to meet administrative regulation requirements.

K.A.R. 28-50-10 implements the work practice procedures when encapsulating friable asbestos-containing materials. The proposed amendments include deleting the existing work practices and referencing the federal OSHA requirements when performing an asbestos related encapsulation project in the state.

K.A.R. 28-50-14 implements the waste disposal requirements when disposing of friable asbestos-containing materials within the state. Proposed amendments include deleting the requirements that the waste generator must obtain authorization from the department prior to disposing of friable asbestos-containing materials in state licensed landfills. With the EPA regulations requiring that waste shipment records be maintained during transporting of asbestos waste materials to the disposal site, the department is proposing to eliminate this provision, which currently creates a duplication of effort for the regulated community.

Economic Impact

The proposed amendments impose no new capital costs to the implementing agency, the public, or those subject to the regulations. The amendments will result in reduced costs for most building owners and contractors for reportable asbestos abatement projects. The new exemptions with the amendments will eliminate fees for many projects, including some industrial, residences and projects smaller than the minimum quantity regulated by the state. It is projected that by reducing the project evaluation fee from 1.0 percent to 0.5 percent and eliminating fees associated with proposed exempted projects, the department will experience an approximate 50 percent reduction in total project evaluation fees based on FY 97 and FY 98 revenues. It is estimated that for the first year of enactment of this proposal there will be an approximate \$75,000 reduction in revenue from collected fees.

Fees for certifications of class I and class II asbestos workers are being increased \$5 and \$10 respectfully. These fees are being increased to offset the costs associated with certifying the approximate 1,100 asbestos workers. These modest and equitable increases to the level of \$20 (class I worker level) and \$40 (class II supervisory level) are the first increases since 1987.

The proposed amendments will impose no new costs or paperwork burdens of implementing and enforcing upon state agencies, other governmental agencies or other persons. If the proposed amendments are not implemented, the regulated community will be subject to more restrictive regulatory requirements than those contained in the federal regulations, which could lead to higher abatement costs for building and property owners in instances where friable asbestos-containing materials must be removed. Also, by reducing the project evaluation fee and raising the reportable quantities subject to the asbestos notification provisions, the regulated community will see an overall reduction in project evaluation fees by implementing these amendments. The proposed fees will be in line to monies needed to implement the program.

The time period between publication of this notice and the scheduled hearing serves as the required public comment period of at least 60 days for the purpose of receiving written public comments on the proposed regulations. All interested parties may submit written comments prior to the hearing to Russell Brichacek, Department of Health and Environment, Bureau of Air and Radiation, Forbes Field, Building 283, Topeka, 66620. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Copies of the proposed amendments and the economic impact and environmental benefit statements may be obtained by contacting Russell Brichacek, (785) 296-1544. Questions pertaining to these proposed amendments should be directed to Russell Brichacek or Gary Miller, (785) 296-1547.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statement in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Robert Bradford, Department of Health and Environment, Bureau of Air and Radiation, Forbes Field, Building 283, Topeka, (785) 296-1587.

Persons wishing to comment on or object to the draft permits and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment if they wish to have the comments or objections considered in the decision making process. Comments or objections should be submitted to the attention of Dena Endsley for agricultural permits or applications, or to the permit clerk for all other permits, at the Kansas Department of Health and Environment, Division of Environment, Bureau of Water, J Street and 2 North, Forbes Field, Building 283, Topeka, 66620

All comments regarding the draft permit or application notice postmarked or received on or before July 3 will be considered in the formulation of final determinations regarding this public notice. Please refer to the appropriate Kansas permit number (KS-99-102/109) and name of applicant/application as listed when preparing comments.

If no objections are received during the public notice period regarding any proposed permit, the Secretary of Health and Environment will issue the final determination regarding issuance or denial of the proposed permit. If response to this notice indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). Media coordination for publication and/or announcement of the public notice or public hearing is handled by the Kansas Department of Health and Environment.

For agricultural permits and applications, a copy of the permit application, supporting documentation and a KDHE-developed fact sheet checklist is available for re-

view at the appropriate district office:

Notice to Consulting Engineers

The Kansas Department of Transportation is seeking qualified consulting engineering firms for the project listed below. Seven signed copies of the response should be mailed to Neil Rusch, P.E., Assistant to the Director, Division of Engineering and Design, KDOT, Room 1084-West, Docking State Office Building, 915 S.W. Harrison, Topeka, 66612-1568. Responses shall be limited to four pages. Responses must be received in Room 1084-West by 5 p.m. June 16 for the consulting engineering firm to be considered.

From the firms expressing interest, the Consultant Selection Committee will select a list of the most highly qualified (not less than three, not more than five) and invite them to attend an individual interview conference. At this time, the consulting firms can more thoroughly discuss their experience related to the type of project at hand and will be expected to discuss, in some detail, their approach to this project and the personnel to be assigned to the project. Firms not selected to be short listed will be notified by letter.

The Consultant Negotiating Committee, appointed by the Secretary of Transportation, will conduct the discussions with the firms invited to the individual interview conferences. The committee will select the firm to perform the professional services required for completing the advertised project. After the selection of this firm, the remaining firms will be notified by letter of the outcome.

Project No. 54-48 K-7340-01 Project No. 17-48 K-7338-01 Kingman County

The scope of improvement for Project No. 54-48 K-7340-01 is to provide for the rehabilitation of US-54 from the east city limits of Kingman, east to 0.2 km east of K-17. The project is scheduled for plan completion in January 2002, and the estimated construction cost is \$5,602,000. The scope of improvement for Project No. 17-48 K-7338-01 is to provide for the replacement of Smoots Creek Bridge (042), 0.8 km north of US-54. The project is scheduled for plan completion in September 2001, and the construction estimate is \$778,000.

It is KDOT's policy to use the following criteria as the basis for selection of the consulting engineering firms:

- 1. Size and professional qualifications;
- 2. Experience of staff;
- 3. Location of firm with respect to proposed project;
- 4. Work load of firm; and
- 5. Firm's performance record.

Proposals will be issued upon request to all prospective bidders who have been prequalified by the Kansas Department of Transportation on the basis of financial condition, available construction equipment and experience. Also, a statement of unearned contracts (Form No. 284) must be filed. There will be no discrimination against anyone because of race, age, religion, color, sex, handicap or national origin in the award of contacts.

Each bidder shall file a sworn statement executed by or on behalf of the person, firm, association or corporation submitting the bid, certifying that such person, firm, association or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. This sworn statement shall be in the form of an affidavit executed and sworn to by the bidder before a person who is authorized by the laws of the state to administer oaths. The required form of the affidavit will be provided by the state to each prospective bidder. Failure to submit the sworn statement as part of the bid approval package will make the bid nonresponsive and not eligible for award consideration.

Plans and specifications for the projects may be examined at the office of the respective county clerk or at the KDOT district office responsible for the work.

Order a custom-made loose-leaf binder for the Kansas Register!

Custom-made Kansas Register
binders are now available. These
binders will attractively hold up to a
year's worth of your copies of the Kansas
Register for permanent use. They are high quality,
durable casebound Swing Hinge® binders made by McBee Loose
Leaf Binder Products. (A Swing Hinge® binder has more capacity
and allows for easier interfiling than standard ring binders.) The
three-inch binders feature dark blue supported vinyl covering and
gold imprinting.
